

The American Public Works Association (APWA) has awarded full accreditation to the Public Works Department. This prestigious distinction was the result of many months of hard work and dedication from Public Works employees.

The accreditation process is beneficial to the City of Peoria because it permits the department to examine all of its programs and procedures and ensures that they are in compliance with Nationally accepted best practices. While the examination processes are rigorous and time-consuming, the tremendous benefits of administrative and programming excellence are well worth the effort.

The City of Peoria Public Works Department is one of the largest of the City's departments. One or more of the Department's division activities touch the lives of Peoria citizens everyday. The Public Works Department is comprised of a team of technical and administrative personnel dedicated to providing excellent service.

The Public Works Department serves the residents of Peoria by utilizing the joint efforts of its divisions. Activities such street sweeping, solid waste and recycling management and water & sewer maintenance are just a few examples of services the Public Works Department is proud to provide to residents on a regular basis.

The Public Works Department will continue to be proactive in providing services to Peoria residents by using the latest technology and in anticipating the needs of the future, assuring the people of the community a high quality of life.
